

NEGOTIATOR'S FIELD BRIEF

Stability First Enhanced Accord v5.4

FOR AUTHORIZED NEGOTIATORS ONLY

May 2026 — Calibrated for Current Impasse

Checklists · Timelines · Decision Trees · Hotline Numbers
Trigger Conditions · Tranche Schedules · Face-Saving Metrics
Breach Protocols · Crisis Response · MVA Fallback

*This document contains no preamble, no philosophy, and no aspirational language.
Everything here is operational. Use it under pressure.*

1. Immediate Action Checklists

1.1 Pre-Signature (T-5 to T-0)

T-5: Confirm Micro-Pilot Agreement

- Both governments designate senior officials with signing authority
- Oman confirms Muscat facilities; Maritime Council charter drafted
- Switzerland confirms escrow architecture (\$100B ledger locked)
- IAEA confirms Oman custody facility readiness
- Pakistan confirms convening team ready
- Qatar confirms \$2B Reconstruction Fund + \$20B liquidity facility

T-3: Verify Systems Online

- Hotline: Omani Naval Monitor, Khasab — test 5-min response
- Escrow: Swiss Federal Department confirms 3/4 multi-sig keys active
- Cyber: Category I infrastructure protection active
- Satellite: Secretariat receiving daily AIS/EO/SAR feeds
- IAEA: Forward Team Alpha (Muscat) at standby; Team Bravo (Vienna) at standby
- Tel Aviv Channel: Israeli intelligence briefed on framework

T-1: Military Commands Receive Instructions

- Iran: IRGC-Navy receives stand-down order for Hormuz corridor
- US: 5th Fleet receives reduced patrol frequency order
- Both: Cyber commands receive Category I protection protocols
- Both: Proxy forces receive operational pause order
- Israel: Tel Aviv Channel confirms compliance expectation

T-0: Exchange Letters, Activate Micro-Pilot

- Exchange Micro-Pilot letters (politically binding, not treaty)
- Iran: 60% enrichment freeze begins immediately
- US: \$250M released from Swiss escrow
- IAEA: 72-hour clock starts for freeze verification
- Day 0 environmental baseline swipes begin at all facilities
- Drop-dead clock starts: Day 30 ratification deadline

1.2 Day 1: Opening Waltz Pairing

Step	Iran Must Deliver	US Must Deliver	Verify Via
1	60% freeze confirmed; IAEA inspectors on-site	\$250M confirmed received via Swiss escrow	IAEA report + Swiss financial confirmation
2	Stockpile transfer to Oman custody begins	OFAC general license issued for \$250M	IAEA custody chain + OFAC notice
3	Ceasefire order transmitted to all forces	Operation Epic Fury suspension order	Pakistan Co-Convening confirmation

4	Proxy pause order (Hezbollah, Houthis, PMF)	No proxy retaliatory strikes	UNIFIL/UNVIM/UNAMI reporting
5	IRGC small-craft stand-down from Hormuz corridor	5th Fleet reduced patrol frequency	Omani Naval Monitor + AIS

2. Timeline at a Glance

Phase	Window	Iranian Deliverable	US Deliverable	Key Trigger
Micro-Pilot	Days 1-30	60% freeze; IAEA access; IRGC reduced presence	\$250M Swiss escrow; partial blockade reduction	IAEA confirms freeze within 72h
Blind De-esc	Days -44 to -30	No new centrifuges; reduced Hormuz interdiction; proxy pause	No new sanctions; reduced patrols; no proxy strikes	14 days sustained parallel pauses
Stage Open	1: Days 1-14	Ceasefire; stockpile to Oman; Hormuz reopening; mine clearing	Suspend Epic Fury; OFAC license; blockade lift (Day 7)	200+ Hormuz transits; IAEA custody verified
Stage Window	2: Days 15-44 (+7 ext.)	Moratorium declared; centrifuges mothballed; Fordow Phase A	Stage 1 tranche \$750M; 50% assets; SWIFT Phase 1	Moratorium ratified; HEU export confirmed
Stage Perm	3: Days 45-180 (flex)	Transit Authority; successor framework; Fordow Phases B/C	\$3-5B tranches; 85% assets; SWIFT Phase 2	Authority charter ratified; successor opened
Year 1	Day 365	Clean certification; Additional Protocol ratified	\$10B tranche; full SWIFT Phase 3	Annual audit passed; no material breaches

DROP-DEAD: Day 30

If full framework not ratified by Day 30, auto-transition to **Minimum Viable Accord**:

- Ceasefire, humanitarian channel, Hormuz transit, IAEA basic monitoring — **CONTINUE**
- All Tier 3 modules (SWIFT, bonus tranches, successor talks) — **PAUSE**
- Asset releases halt at \$750M total
- Renegotiation begins within 14 days via Reconstitution Mechanism

3. Tranche Schedule & Release Conditions

Pre-Agreed Asset Valuation: \$100B (locked at signature)

Tranche	Day	Amount	IAEA Condition	4/5 Channel Convergence	3/4 Escrow Signatures
Micro-Pilot	Day 1	\$250M	60% freeze within 72h	Required	Required
Stage 1	Day 14	\$750M	Stockpile in Oman custody; ceasefire verified	Required	Required
Stage 2	Day 44	\$1.5B	Moratorium ratified; HEU export confirmed	Required	Required
Stage 3 Mid	Day 120	\$3B	Transit Authority operational; Fordow Phase B	Required	Required
Stage 3 Close	Day 180	\$5B	85% assets; successor framework opened	Required	Required
Year 1	Day 365	\$10B	Clean certification; AP ratified	Required	Required
Total		\$20.5B	Plus up to \$6B bonus pool for over-performance		

Bonus Accelerants

Accelerant	Bonus	Trigger
------------	-------	---------

Early HEU Export	+\$1B	HEU export completed 7+ days before target window
Fordow Early Phase C	+\$2B	Fordow Phase C completed 30+ days before target
Additional Protocol Ratification	+\$3B	AP ratified before Day 365

Escrow Release: 3 of 4 Signatures Required

Signatures required from: Oman, Switzerland, Qatar, UN Appointee. IAEA certification is a condition precedent, not a signature. Each holder has 72 hours to sign. 3 signatures = automatic release within 24 hours. Only 2 signatures = Financial Review Cell convenes within 48 hours. No single state can block; no two states can permanently block.

4. Decision Trees

4.1 Breach Classification

Step 1: Is there a deviation from agreed obligations?

No deviation → Continue monitoring. Log for scorecard.

Yes → Proceed to Step 2

Step 2: What is the nature of the deviation?

Minor procedural, no material impact → **TIER 1**: 48h notification, 7-day corrective window, confidential resolution.

Substantial disruption, no hostile intent → **TIER 2**: 24h notification, 72h Council convening, 14-day remediation. Affected module to Hold; others continue.

Willful, material, hostile intent → **TIER 3**: Immediate Return-to-Talks. 7-day mandatory mediation. Only Tier 3 allows formal suspension.

Step 3: For Tier 3 only — can it be resolved through mediation?

Yes → Modified continuation with agreed corrective measures.

No → Formal suspension of affected Tier 3 modules. Survival Core continues. Reconstitution Conference mandatory within 30 days.

4.2 Attribution Decision

Step 1: Is attribution Level 5 (Confirmed)?

Yes → Full diplomatic response; Tier 3 classification; UNSC referral if appropriate.

No → 72-HOUR ATTRIBUTION HOLD activates automatically.

Step 2: During 72h Hold — what do we do?

Rogue Actor Protocols auto-activate

Cooling-Off Default: 24-72h escalation freeze (no approval needed)

Five-Channel Verification Convergence deploys to investigate

No public accusations until Level 4 reached

Step 3: At 72h mark — what is the attribution level?

Level 4 (Highly Probable) → Diplomatic protest; formal review; no military response

Level 3 (Probable) → Backchannel demarche; 14-day forensic review; no public accusations

Level 2 or below → Continue fact-finding; enhanced monitoring; no diplomatic response

4.3 Crisis Response Decision

Step 1: Is there an active armed attack in progress?

Yes → Self-defense permitted. Notify hotline within 5 minutes. No retaliatory strikes against territory until attribution determined.

No → Proceed to Step 2.

Step 2: Is there a false-flag indicator triggered?

Yes → FALSE FLAG PROTOCOL: Cooling-Off + UN Appointee investigation. No military response.

No → Proceed to Step 3.

Step 3: Is it a proxy action?

Yes → Check Proxy Attribution Matrix. Default level applies. 72h Attribution Hold. Condemnation within 24h required from sponsoring party.

No → Standard breach classification (Section 4.1).

5. Five-Channel Verification Matrix

Channel	Domain	What They Verify	Reporting	Emergency Contact
IAEA	Nuclear	Enrichment freeze, stockpile custody, facility access, AP compliance	Quarterly reports; 72h for emergencies	IAEA Emergency Ops, Vienna
Oman	Maritime	Hormuz transit, hotline, naval deconfliction, AIS	Daily maritime report	Omani Naval Monitor, Khasab
Switzerland	Financial	Escrow releases, asset transfers, sanctions relief, \$100B ledger	Weekly financial report	Swiss Federal Dept, Bern

Qatar	Liquidity	Emergency facility, Reconstruction Fund	bridging	finance, Weekly report	liquidity	Qatari Financial Centre, Doha
UN Appointee	Procedural	Dispute resolution, deadlock breaking	governance	facilitation, Per dispute		UN Palais des Nations, Geneva

4/5 CONVERGENCE RULE

No compliance certification, milestone verification, or tranche release may proceed without **at least 4 of 5 channels** independently confirming. A dissenting channel's objections are documented but do not block. If only 3/5 concur, certification is withheld and a Verification Convergence Panel convenes within 48 hours.

Facilitating State Council (FSC) — Quarterly rotating: Oman (Q1), Switzerland (Q2), Qatar (Q3), Oman (Q4). Pakistan is Co-Convening Authority for emergency summits and executive relay.

6. Three-Tier Breach System — Quick Reference

	Tier 1: Technical	Tier 2: Material	Tier 3: Deliberate Hostile
Definition	Minor procedural deviation	Substantial disruption; no hostile intent	Willful breach with hostile intent
Notify within	48 hours	24 hours	Immediate + Return-to-Talks
Fix window	7 days	14 days	7-day mandatory mediation first
Other modules	All continue	Affected to Hold; others continue	Survival Core continues; others may suspend
Suspend?	NEVER	NEVER	Only after mediation fails
Public?	No	If operationally necessary	Yes
Examples	Report 24h late; customs delay for equipment	Centrifuges not sealed by date; \$500M+ transfer delayed 30+ days	60% enrichment resumed with cameras disabled; missile strike on IAEA facility

Universal Protections (All Tiers)

MANDATORY BEFORE ANY SNAPBACK:

- Emergency review by Facilitating State Council
- Neutral technical assessment by at least 2 verification channels
- One emergency summit attempt (in-person or video)
- 72-Hour Attribution Hold completed

NO WITHDRAWAL DURING MEDIATION: During FSC review, IAEA clarification, hotline dispute resolution, or stabilization hold, neither side may formally withdraw.

7. Hotline & Emergency Contacts

Function	Contact	Response Time	Use For
Field Hotline	Omani Naval Monitor, Khasab MCC	5 minutes	Vessel in exclusion zone, weapons deployment, AIS anomaly
Strategic Hotline	Omani Foreign Ministry + UN Appointee	30 minutes	Tier 2+ incidents, diplomatic escalation

Executive Relay	Pakistan Co-Convening Authority (PM Office)	6 hours	Head-of-state communication, existential threat
Cyber Hotline	Secretariat Cyber Cell, Geneva	30 min (Critical); 6h (Serious)	Cyber attack on Category I/II infrastructure
Financial	Swiss Federal Dept, Bern	24 hours	Escrow issues, asset transfer delays
Nuclear Emergency	IAEA DG Office, Vienna	6 hours	Enrichment anomaly, facility incident
Liquidity Emergency	Qatari Financial Centre, Doha	4 hours	Banking channel disruption, emergency liquidity
Reconstitution	UN Appointee, Geneva	30 days (convene)	Full suspension trigger

Secretariat Sites

Site	Location	Primary Functions	Failover
Primary	Geneva, Switzerland	Political, Financial, Crisis, Communications Cells	Auto-failover to Muscat in 4 hours
Backup	Muscat, Oman	Maritime Operations, all hotlines, regional liaison	Assumes full authority if Geneva down

8. Face-Saving Metrics — Use These in Public Statements

Module	Iran Can Claim	US Can Claim
60% Freeze	"NPT rights preserved; enrichment continues at 3.67%; sovereign annual review"	"Weapons-grade enrichment halted; IAEA inside Natanz and Fordow within 72 hours"
Hormuz Reopening	"200 Hormuz transits verified; Iranian ports fully operational"	"Freedom of navigation restored; gas prices falling within 7 days"
Blockade Lift	"US naval blockade removed; trade resumes"	"Blockade lifted because Iran verifiably froze enrichment"
Stockpile Transfer	"Sovereign asset held in trust by IAEA; not surrendered to any single power"	"Entire 60% stockpile in third-country custody; verified by mass spectrometry"
Mothball Protocol	"Our centrifuge infrastructure preserved; rotors in joint custody, not destroyed"	"Enrichment capability above 3.67% physically disabled; under international seal"
Transit Fee	"Sovereign right to collect environmental fees from vessels transiting our waters"	"Nominal environmental fee funding maritime safety; rate ceiling in place"
Reconstruction Fund	"\$2B in reconstruction funding within 14 days; international community helping rebuild"	"We supported regional reconstruction through an internationally governed fund"
No Snapback	"US formally pledged no snapback as long as we maintain the freeze"	"Our pledge is performance-based; Iran controls whether it remains in force"
Civilian Nuclear	"International community helping us build civilian nuclear power under NPT rights"	"We enabled civilian nuclear energy, fully safeguarded, no weapons pathway"
Ceasefire	"American offensive operations ceased; no more bombs on Iranian soil"	"Operation Epic Fury achieved its objectives; no more Iranian attacks"
Zero Breakout	"Framework preserves our rights while eliminating breakout capability"	"Framework achieves verifiable zero-breakout timeline"

DISCIPLINE RULE: Neither side may characterize the other's commitments as "concessions" or "defeat." All statements must be pre-cleared through the Communications Cell. Use the phrases above exactly as written.

9. Minimum Viable Accord — Emergency Fallback

ACTIVATE MVA IF:

- Full framework rejected by either party
- Day 30 drop-dead reached without ratification
- Both parties agree full framework is too ambitious

MVA Covers Four Elements Only

Element	Iran	US	Verification
1. Ceasefire	Cessation of offensive ops	Suspend Epic Fury	Pakistan confirmation Co-Convening
2. Hormuz Reopening	IRGC withdraws small craft	Blockade lifted; vessels beyond 12nm	Omani Naval Monitor + AIS
3. Humanitarian Channel	Zero-fee, no-delay transit	OFAC general license for humanitarian	UN OCHA + WFP vessel registry
4. Enrichment Freeze	Freeze all enrichment above 60%	\$250M via Swiss escrow	IAEA confirmation within 72h

MVA Activation (72 hours from proposal to activation)

1. Either party proposes MVA to Secretariat (written notice)
2. Facilitating State convenes within 48 hours
3. Both parties confirm (exchange of letters)
4. MVA activates 72 hours after confirmation
5. IAEA advance team deploys within 48 hours

MVA Graduation to Full Accord

AUTO-GRADUATE WHEN:

- Both parties confirm objectives met
- 14 consecutive days verified compliance
- Neither party objects within 7-day review window

10. Framework Survival Core — What Survives Everything

THREE ELEMENTS SURVIVE UNDER ALL CIRCUMSTANCES

Element	Status	Why It Survives
Ceasefire Hotline	Active 24/7 regardless of framework status	Standalone UN humanitarian arrangement; 30-day notice required to disable
Humanitarian Access	Zero-fee, no-delay Hormuz transit for food/medicine/UN supplies	Classified as inviolable; Tier 3 breach if violated
Emergency Diplomatic Channel	Backchannel through Secretariat open for crisis communication	Enables reconstitution even after formal withdrawal

What Survives If Each Track Fails

If This Fails	Survives (Auto)	Goes to Hold
Nuclear talks	Ceasefire, Hormuz, humanitarian, tranches 1-2, IAEA basic	Further releases, SWIFT, Fordow advanced phases
Sanctions relief delayed	Ceasefire, Hormuz, IAEA, humanitarian	Further nuclear concessions, cap renewal
Maritime incidents	Ceasefire, nuclear freeze, IAEA, humanitarian	Non-humanitarian transit, asset releases pending review
Israeli strike	Humanitarian, IAEA (if safe), diplomatic channels	All non-humanitarian tracks; Crisis Pause Mode
Verification fails	Ceasefire, Hormuz, humanitarian, tranches 1-2	Further releases, digital verification

11. Reconstitution — If Full Suspension Occurs

MANDATORY: Reconstitution Conference within 30 days

Pre-defined: UN Appointee convenes. Location: Geneva (default) or Muscat (backup). Agenda pre-set. Standing conference kit maintained by Secretariat (pre-booked venue, pre-cleared visas, secure comms, translation). Conference activates within 72 hours of trigger.

Reconstitution Trigger Conditions

Trigger	Timeline
Formal suspension of 2+ Tier 3 modules	Within 30 days
Either party issues withdrawal notice	Within 30 days
FSC determines "full suspension" status	Within 30 days
UN Secretary-General requests conference	Within 30 days
90 days elapsed since last bilateral Secretariat meeting	Within 30 days

Possible Outcomes

Outcome	Definition	Next Steps
Full Reconstitution	Both agree to resume all suspended elements	30-day phased resumption; 90-day review
Partial	Some resume; others remain on Hold	Graduated return; quarterly review
Modified	Substantial modifications agreed	Amendment protocol; 180-day assessment
Survival Core Only	No agreement beyond Survival Core	Core continues indefinitely; future reconstitution always possible

NO DISAPPEARANCE RULE: Neither party may refuse to attend. Attendance does not imply commitment to resume. Non-attendance = Tier 3 breach. Conference can convene without an absent party.

12. Cooling-Off & Force Majeure

Cooling-Off Default — Automatic 24-72 Hour Escalation Freeze

ACTIVATES AUTOMATICALLY WHEN:

- Attribution Level 3 or below
- Secretariat determines irreconcilable positions
- Either party requests Cooling-Off (auto-granted)
- Cyber incident on Category I/II infrastructure
- False-flag indicators triggered

Procedure: Activates automatically (no approval needed). Secretariat notifies all parties within 2 hours. All parties freeze escalatory actions for 24h minimum. Verification teams deploy. Extends to 72h maximum. Beyond 72h requires mutual consent.

Force Majeure — Temporary Pause Without Breach

Event Type	Max Pause	Procedure
Natural disaster (earthquake, flood, hurricane, pandemic)	90 days (auto-extension available)	Triad arbitration within 7 days
Third-party military attack	90 days	FSC emergency session within 48h
Catastrophic terrorist attack (>50 fatalities)	90 days	FSC emergency session within 24h
Critical infrastructure failure	30 days	Technical Review Cell within 48h
Third-party cyber attack on verification	72 hours + recovery	Cyber Cell + analogue backup

NO PENALTY: A properly declared and FSC-certified Temporary Pause does not constitute material breach, does not trigger the PRDD, and does not affect compliance timelines. Days during a certified pause are excluded from all compliance timeframes.

Political Shock Absorber — Automatic Review Pause

Shock Type	Auto-Response	Max Duration
Elections, referenda	Review Pause; Tier 1/2 continue; Tier 3 to Hold	90 days (extendable)
Assassination of senior leadership	Same as above	90 days
Cabinet collapse / reshuffle	Same as above	90 days
Mass protests affecting authority	Same as above	90 days
Leadership transition	Same as above	90 days

Review Pause is NOT a material breach. Does NOT trigger breach system. Does NOT affect compliance scoring.

13. Key Numbers — Memorize These

Item	Value	Item	Value
Micro-Pilot duration	30 days (+7 Triad ext.)	PRDD freeze window	30 days
Stage 1	14 days	Cooling-Off period	24-72 hours
Stage 2	30 days (+7 ext.)	Escalation Pause review	30 minutes
Stage 3	Days 45-180 (flexible)	Hotline Tier 1 response	5 minutes
Day 30 Drop-Dead	Auto-MVA if unratified	Hotline Tier 2 response	30 minutes
IAEA freeze verification	Within 72 hours	Secretariat failover	4 hours

Blockade lift sync	Day 7, within 60 seconds	Stabilization Hold max	90 days
Additional Protocol	Day 90 (accelerated)	Technical Delay max/stage	3 per party
Pre-agreed asset value	\$100 billion	Force Majeure max	90 days
Total tranches (365d)	\$20.5B	Political Shock max	90 days
Bonus pool	Up to \$6B	Reconstitution deadline	30 days
Reconstruction Fund	\$2B seed + 10% tranches	Withdrawal notice	6 months
Qatari liquidity facility	\$20B	4/5 channels for cert	Required
Hormuz transit fee (tankers)	\$0.10/barrel	3/4 escrow signatures	Required
Framework elements	Survival Core 3 (never pause)	Successor modules (Day 180)	Day 3 (maritime/economic/humanitarian)
Enhancements total	99	Post-quantum encryption	Day 180 target

NEGOTIATOR'S MANTRA

"Synchronized steps. Four of five channels. Three of four signatures. Stabilization pause, not collapse. Survival core survives everything. If all else fails: ceasefire, humanitarian, hotline. Then reconstitute."
