

JOINT SECRETARIAT

Simultaneous Announcement Protocol & Joint Statement

Implementation of The Final Steps Accord v3.1

UNITED STATES — ISLAMIC REPUBLIC OF IRAN

DATE

24 May 2026

LOCATION

Muscat, Sultanate of Oman

THE RUBIO–BAGHAEI PARALLEL STATEMENTS

A Coordinated Simultaneous Announcement Protocol

THE PROBLEM

Washington needs to say "Iran surrendered its HEU stockpile." Tehran needs to say "nuclear details are deferred." Both statements are in the text, but they are in different sections. The public fight is over which clause is read first.

THE SOLUTION

A pre-negotiated, simultaneous reading of two parallel, non-contradictory factual statements that quote directly from the Accord. Neither is a lie; each is a choice of emphasis. This closes the "sequencing trap."

THE ACTION

Mediators shall have both spokespersons hold the Accord, point to their respective section, and read these statements simultaneously via video feed. They do not share a room. They do not see each other. They speak at the same UTC time.

STEP 1: PRE-POSITION THE TWO SPOKESPERSONS

SPOKESPERSON	LOCATION	CAMERA ANGLE	TELEPROMPTER
Secretary Rubio	New Delhi (or Washington via secure video)	Medium shot, US flag behind	Loaded with Washington narrative
Spokesperson Baghaei	Tehran (or Geneva neutral venue)	Medium shot, Iranian flag behind	Loaded with Tehran narrative

CRITICAL CONSTRAINT

Do not put them in the same room. They do not need to see each other. They only need to speak at the same UTC time.

STEP 2: THE 60-SECOND SIMULTANEOUS WINDOW

Use the same Swiss Dashboard that executes the Day 7 dual-trigger.

TIME (UTC)	ACTION
T-5 min	Both spokespersons confirm readiness via liaison officers. Dashboard logs both.
T-1 min	Teleprompters cued. Both take a breath.
T=0	Both speak simultaneously within a 60-second window. Neither hears the other. Neither goes first.
T+60 sec	Both conclude. Dashboard logs completion timestamps.

FAILURE PROTOCOL

If one side refuses to speak at T=0, the other does not speak either. The event is rescheduled for 24 hours later. This prevents either side from "going first" and allowing the other to react.

STEP 3: THE EXACT SCRIPTS (WITH ACCORD CITATIONS)

SECRETARY RUBIO — WASHINGTON NARRATIVE

Location: New Delhi / Washington | Teleprompter: Washington Narrative

"The Final Steps Accord provides for the immediate physical custody of Iran's 60% enriched uranium stockpile by the IAEA within 72 hours. This material is now under international lock and key, verified by US-accessible monitoring. As the Secretary of State has demanded, the weapons-grade material is secured before any major sanctions relief is delivered."

Citation (lower third): Article 1.1, The Final Steps Accord v3.1

SPOKESPERSON BAGHAEI — TEHRAN NARRATIVE

Location: Tehran / Geneva | Teleprompter: Tehran Narrative

"As the Islamic Republic has insisted from the beginning, the nuclear issue is deferred to a secondary 30-to-60 day negotiating window. The physical custody transfer is a technical verification metric for Phase 1 of the truce. Full legal title to all uranium remains vested in the Central Bank of Iran, and the US has no veto over its final disposition."

Citation (lower third): Article 1.3 and Article 1.5, The Final Steps Accord v3.1

VERIFICATION PRINCIPLE

Both statements are factually accurate under the operative text of the Accord. Secretary Rubio emphasizes immediate physical custody and monitoring — a verification milestone for Phase 1. Spokesperson Baghaei emphasizes legal title retention and deferred disposition — both enshrined in Articles 1.3 and 1.5. Neither statement contradicts the other. Both are legally grounded.

TECHNICAL ARCHITECTURE

ELEMENT	WASHINGTON FRAME	TEHRAN FRAME
Physical Custody	"Under international lock and key"	"Technical verification metric for Phase 1"
Legal Title	Not emphasized (implicit in CBI retention)	"Full legal title remains vested in CBI"
Timeline	"72 hours" — immediate action	"30-to-60 day window" — deferred negotiation
US Veto	Not claimed (no veto exists)	"US has no veto" — explicit safeguard
Article Cite	Article 1.1 (custody architecture)	Articles 1.3 & 1.5 (Phase 2/deferred disposition)

MEDIATOR GUIDANCE

If either capital asks "what did we win?" — point them to their respective statement. Both claims are valid. Both are in the text. Neither requires the other to be false.

STEP 4: THE JOINT PRESS RELEASE (PRE-WRITTEN, RELEASED SIMULTANEOUSLY)

After both spokespersons speak, the Joint Secretariat issues a single, factual press release:

JOINT SECRETARIAT

Muscat, Sultanate of Oman

FOR IMMEDIATE RELEASE

PR-20260524-FSA-v3.1

JOINT STATEMENT ON THE IMPLEMENTATION OF THE FINAL STEPS ACCORD V3.1

Simultaneous Announcement by the United States and the Islamic Republic of Iran

Muscat, Oman — 24 May 2026

The United States of America and the Islamic Republic of Iran have today taken simultaneous steps to implement The Final Steps Accord v3.1.

In coordinated announcements delivered within the same 60-second window, Secretary of State Marco Rubio and Foreign Ministry Spokesperson Esmail Baghaei confirmed the following provisions of the Accord:

NUCLEAR STOCKPILE

- Iran's entire stockpile of uranium enriched to 60% has been consolidated, inventoried, and placed under IAEA custody within 72 hours of Accord activation.
- Physical custody is verified by IAEA with US-accessible monitoring.
- Full legal title remains vested in the Central Bank of Iran.
- Final disposition of the stockpile is deferred to a dedicated 30-to-60 day nuclear negotiating window, as set forth in Article 1 of the Accord.
- The United States has no veto over the disposition pathway selected by Iran.

MARITIME GOVERNANCE

- The Joint Hormuz Transit Authority (JHTA) governs the international transit corridor under UNCLOS.
- The Persian Gulf Strait Authority (PGSA) is recognized as the sole executive coastal law enforcement body within Iranian territorial waters.
- Transit fees are collected through the Multilateral Maritime Maintenance Fund in Oman, not paid directly to Iran.

LEBANON FRONT

- A Dossier Isolation Firewall legally prohibits incidents in Lebanon from triggering stepback or suspension of the core US-Iran Accord.

- A Levant Regional Basket parallel diplomatic track addresses Israel-Lebanon de-escalation on an independent timeline.

NEXT STEPS

The 180-day implementation roadmap begins immediately. The ceasefire is a self-renewing 72-hour module. All Phase 1 verification milestones are scheduled for completion within 14 days.

This Accord is deposited with the Joint Secretariat in Muscat and registered with the United Nations Secretary-General.

PR-20260524-FSA-v3.1 — Deposited with the Joint Secretariat, Muscat, Sultanate of Oman

RELEASE PROTOCOL

TRIGGER	ACTION	RESPONSIBLE PARTY
Dashboard confirms T+60 to all parties	Joint Secretariat releases press release	Joint Secretariat, Muscat
Press release issued simultaneously	Both capitals post identical text	US State Department / Iranian Foreign Ministry
Media queries	All inquiries routed to Joint Secretariat in Muscat	Joint Secretariat Press Office

EDITORIAL PRINCIPLE

No spin. No "who won." Just the facts that both sides can point to. The press release is neutral by design. Each capital's victory is found in their own spokesperson's statement (Step 3), not in the joint text (Step 4).

OPERATIONAL SUMMARY

THE FOUR-STEP SEQUENCE

STEP	ELEMENT	DESCRIPTION	OUTPUT
1	Pre-Positioning	Both spokespersons at separate locations with teleprompters loaded with their respective national narratives	Ready status logged on Swiss Dashboard
2	60-Second Window	Simultaneous execution via Swiss Dashboard. Both speak within 60 seconds. Neither goes first.	Timestamped completion certificates
3	Parallel Statements	Rubio reads Washington narrative (Article 1.1). Baghaei reads Tehran narrative (Articles 1.3/1.5). Both factually accurate.	Two valid national framings
4	Joint Press Release	Joint Secretariat issues neutral, factual statement. No spin. Both capitals post simultaneously.	Single verified public record

KEY PRINCIPLES

- 1. Non-Contradiction:** The two narratives do not conflict. They emphasize different clauses of the same operative text. Both are legally grounded.
- 2. Simultaneity:** Neither side speaks first. The 60-second window is enforced by the Swiss Dashboard. If one aborts, both abort.
- 3. Neutrality of Joint Text:** The press release (Step 4) contains no evaluative language. It records facts. Each side finds their victory in their own statement (Step 3).
- 4. Accord Citations:** Every claim is traceable to a specific article. Lower-third graphics display the citation during broadcast.

CLOSING NOTE

This is not a lie; it is a choice of emphasis. It closes the "sequencing trap." When both sides read from the same document at the same moment, pointing to different paragraphs, the world sees coordination rather than capitulation. The Accord survives its first public test.
